

Key features:

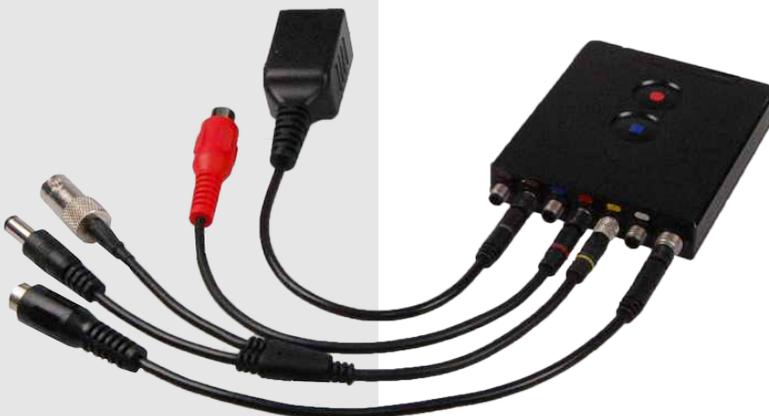

- i-Conex makes installing and wiring Ovation video surveillance products simple and effective.
- Interfaces to commonly used video, audio and power connectors.
- Any cable can be extended with simple to install in-line extension cables.
- Range of i-Conex peripherals including miniature cameras, microphones and GPS receivers.

i-Conex miniature, easy to install, Inter-Connection and Cabling System.

i-Conex is the new cabling systems developed by Ovation Systems, specially designed to make the installation and wiring of Ovation's range of digital video recorders and video surveillance products simple and effective.

The heart of the system is a miniature 4 pin watertight screw-locking connector with a range of cable assemblies which interface to many commonly used video, audio and power connectors. One of the huge advantages of the i-Conex system is that any cable can be easily extended by a simple to install in-line extension. This allows the cable lengths to be easily tailored for each and every installation, on-site, without the need to use a soldering iron, wire cutters etc. There is a range of i-Conex compatible peripherals including microphones, bullet cameras and GPS receivers.

i-Conex cable assemblies fitted to Ovation's FlashBack-4 digital video recorder

i-Conex cable-end connector

Looking into connector

i-Conex is available for the following products:

FlashBack-3C Dual
DVR/Video Streamer

FlashBack-3C Single
DVR/Video Streamer

micro-FourSight-C
Advanced Video Quad

FlashBack-2C Pod
Rugged DVR

SoundByte High Quality Covert
Audio Recorder

FlashBack-3G DVR, Video Streamer
and GPS Tracker

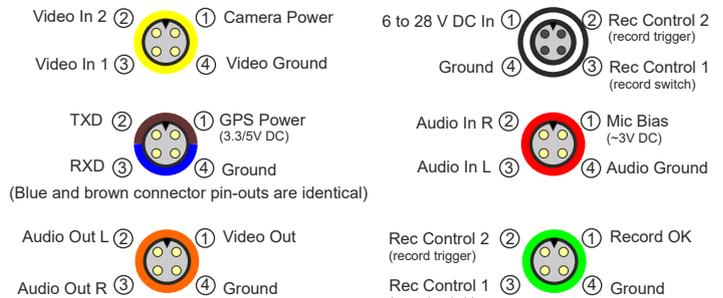

FlashBack4: 4xSD or 1x HD
SD Card DVR

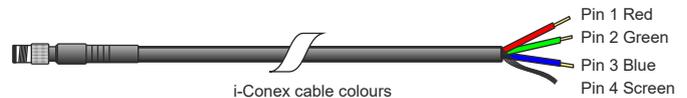

i-Conex Colour Codes & Pinouts:

i-Conex connectors and cable assemblies are colour coded for each function as shown below. Cables should not be interconnected with other functions eg. audio into video, although damage will not result. Pinouts are shown opposite.

- No colour: DC power / trigger inputs
- Video + camera power
- RS232 / GPS
- Stereo Audio In + mic bias
- Record control / trigger
- Ethernet
- Video & audio monitor out

i-Conex GPS Receiver

i-Conex Knowles
microphone pair

Power: cables to supply DC power

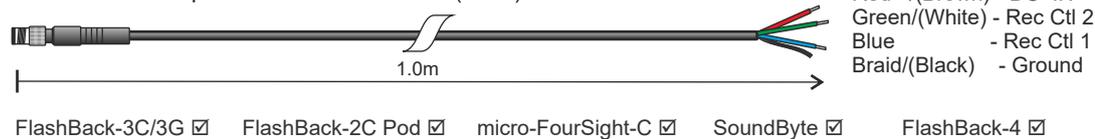

IC1C-5642: Power DC Jack:

IC1C-5645: Power and control cable (male):

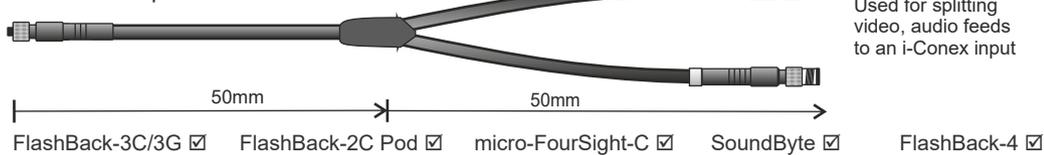

IC1C-6070: Thin power and control cable (male):

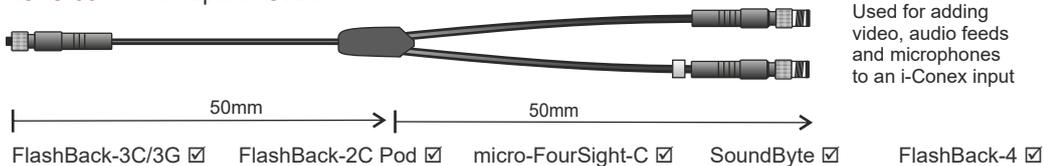

Splitters: add extra capability to an i-Conex input

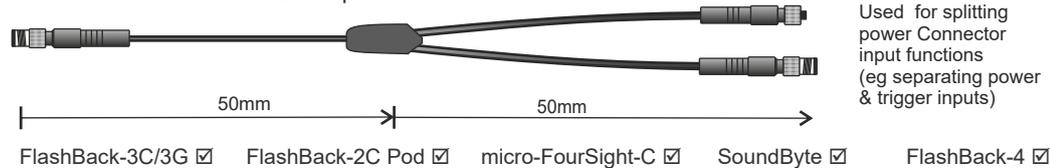

IC1C-5653: Splitter Cable:

IC1C-5874: Thin Splitter Cable:

IC1C-5875: Thin Power Cable Splitter:

Extensions: cables to extend i-Conex Connection

IC1C-5650: Short Extension 0.5m:

IC1C-5651: Medium Extension 1.0m:

IC1C-5652: Long Extension 5.0m:

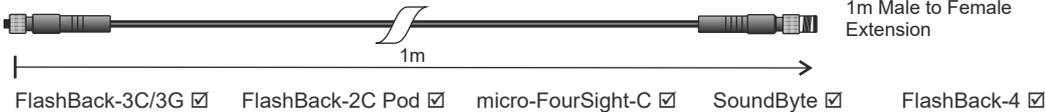

IC1C-5873: Ultra-Short Extension 40mm:

IC1C-5791: i-Conex female to female link cable 200mm long:

IC1C-5872: Thin Medium Extension 1.0m:

Dust Caps & Lanyards: for protecting unused i-Conex inputs

IC1A-5861: Plug Dust Cap

IC1A-5883: 4 Way Dust Cap Lanyard

IC1A-5862: Power Socket Dust Cap

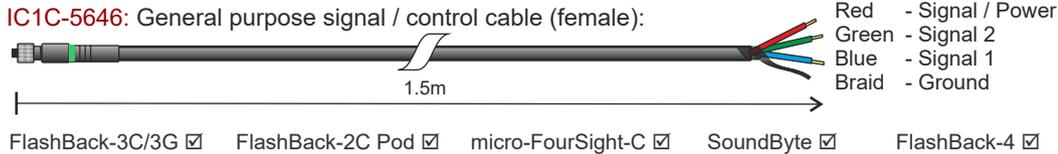

IC1A-5884: 7 Way Dust Cap Lanyard

FlashBack-3C/3G FlashBack-2C Pod micro-FourSight-C SoundByte FlashBack-4

Control: external trigger and control cables

IC1C-5646: General purpose signal / control cable (female):

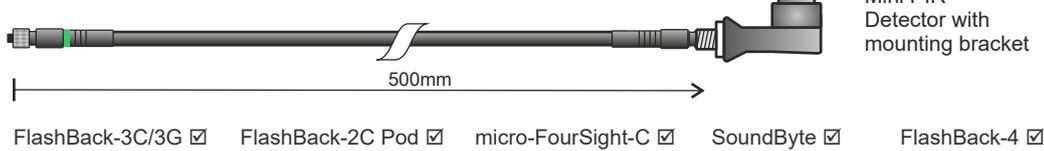

IC1C-6074: Thin general purpose signal / control cable (female):

IC1A-5647: Record Push Switch with LED:

IC1A-5682: Mini Wide-Beam PIR Detector:

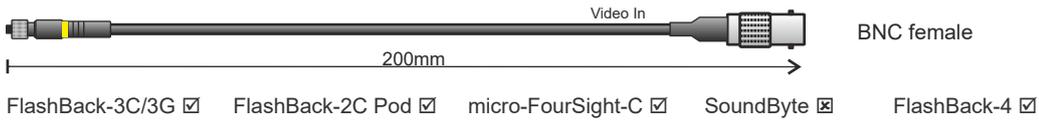

IC1A-5680: Mini Narrow-Beam PIR Detector:

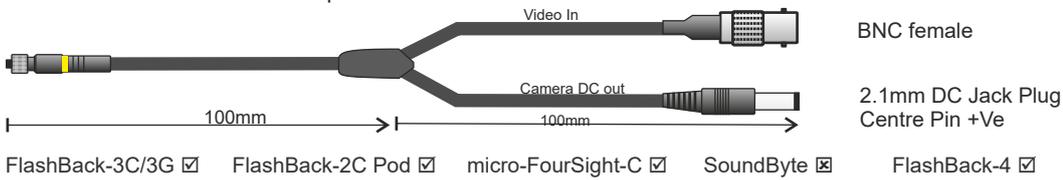

* Additional IC1C-5653 splitter cable maybe required with some installations.

Audio & Video Interface Cables:

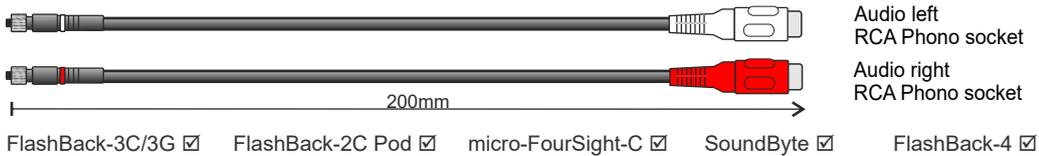

IC1C-5654: Video in:

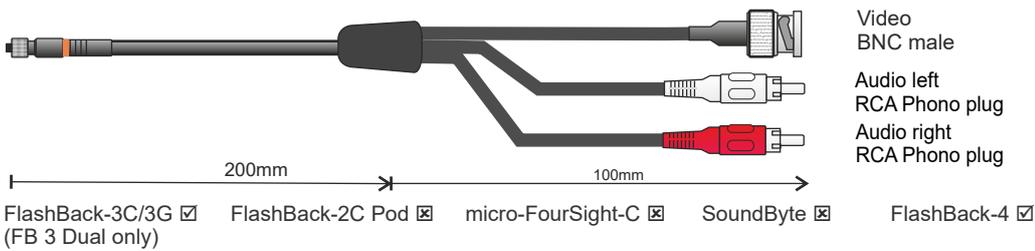

IC1C-5655: Video in & camera power out:

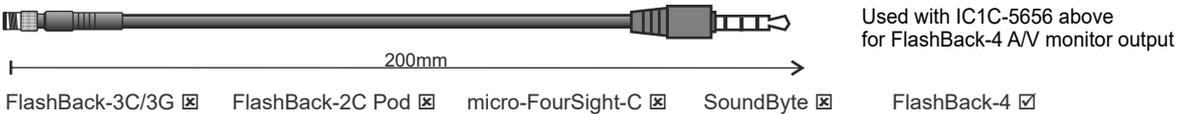

IC1C-5657: Audio in pair: (can be used for video when required)

IC1C-5656: Video & audio monitor out

IC1C-5924: 4 pole A/V monitor output jack to inline i-Conex

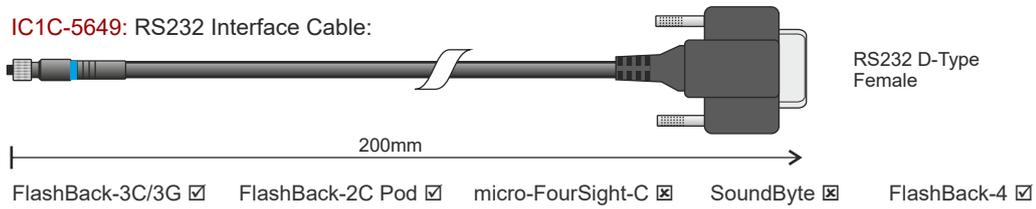

Interface Cables:

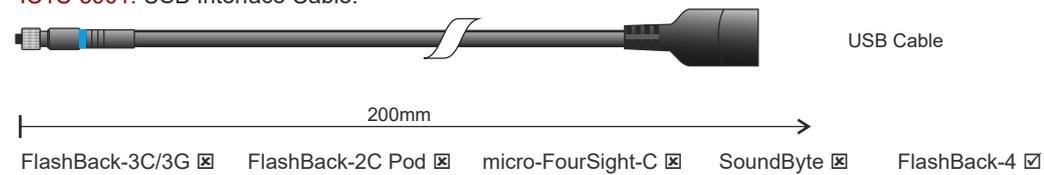

IC1C-5648: Network Interface Cable:

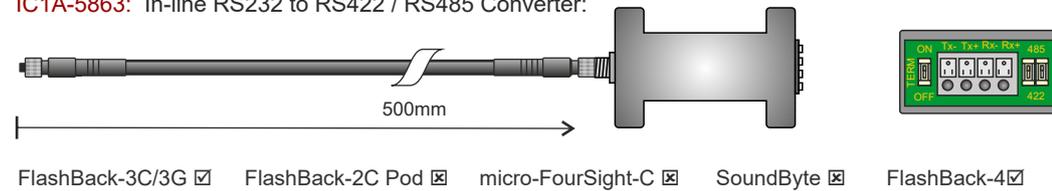

IC1C-5649: RS232 Interface Cable:

IC1C-5901: USB Interface Cable:

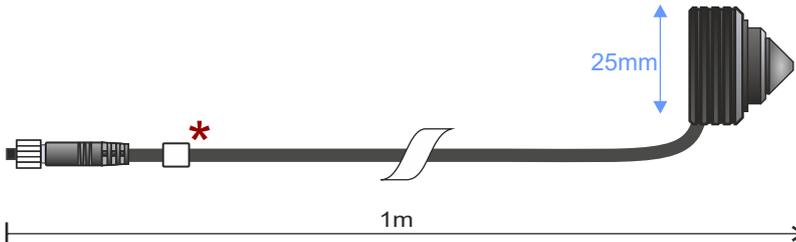

IC1A-5863: In-line RS232 to RS422 / RS485 Converter:

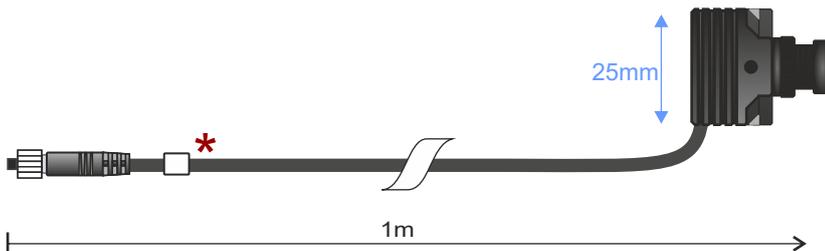

StarVis HD cameras for FlashBack-4:

FB4A-6014: FB4 M12 pinhole HD micro-Cam with 1080p Sony STARVIS low-light sensor.

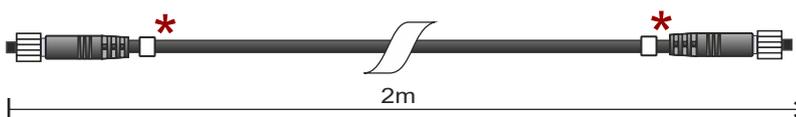

Full HD (1080p/25/30) i-Conex , Sony StarVis sensor, 0.05 Lux, 4.3mm lens (changeable), 5 to 12V DC (170mA@ 5V)
Full kit with interchangeable lenses available.

FB4A-6013: FB4 M12 board lens HD micro-Cam with 1080p Sony STARVIS low-light sensor.

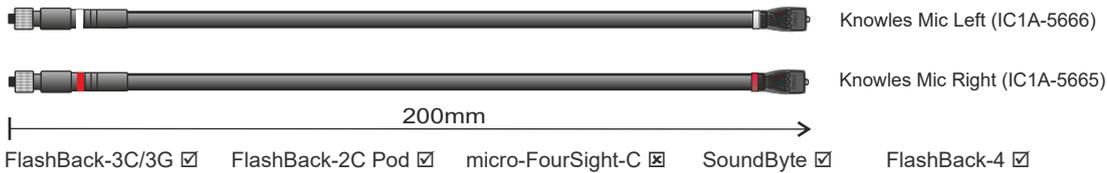

Full HD (1080p/25/30), Sony StarVis sensor, 0.05 Lux, 4.3mm lens (changeable), 5 to 12V DC (170mA@ 5V)
Full kit with interchangeable lenses available.

IC1C-6026: i-Conex shielded HD camera extension cable 2 metres long.

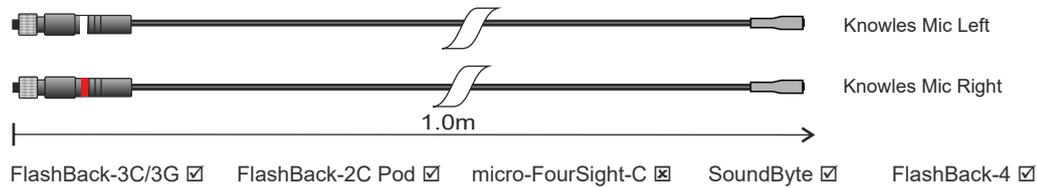

* Please note, all FB-4 HD StarVis cameras should only be used with screened HD cables indicated by a white ring.

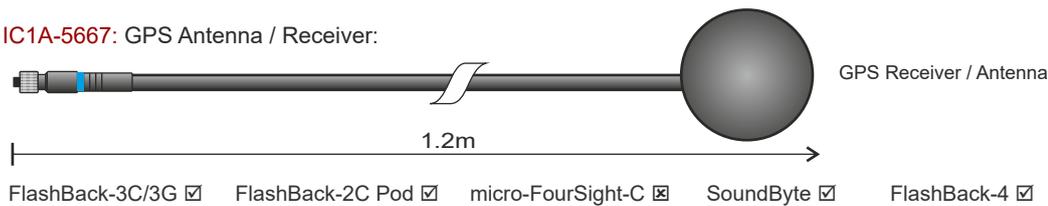

IC1A-5664: External Knowles Microphone (pair):

IC1A-5865: Thin Cable External Knowles Microphone (1.0m):

IC1A-5667: GPS Antenna / Receiver:

For i-Conex Standard Definition Cameras, please see separate datasheet
